OUR DRIVERS

ÁLVARO PARENTE

Ex-Pilot of Expirit Racing Team in the team's inaugural race in Valencia he reached pole-position and handed over the car to his co-pilot Isaac Tutumlu at the pilot change with a 21-second margin over 2nd place. The race was not won by the team - which would have been an historical win for a team in their inaugural race in such a competitive championship - because of an incredible misjudgement by one of the firemen present. Álvaro Parente, one of the most famous motorsport drivers in Europe, was previously champion of several important categories, including Formula 3 or the Renault World Series. He raced in 2009 at the GP2 Series, he start 2012 in FIA GT1 and Blancpain Series.

NELSON PIQUET JR.

With motor racing in his blood, it's no surprise that Nelson Piquet has continued the family tradition. Having started his career in South American karting, Nelson soon switched to car racing with immediate success in South American F3. A move to Europe soon followed where he took top honours in the British F3 Championship in 2004. The Brazilian graduated to GP2 the following year, finishing as runner-up in the series in 2006 after a season-long battle with Lewis Hamilton. He graduated to a race seat in F1 for 2008 alongside Fernando Alonso where his performances, including a second place podium in the German GP, helped the team secure fourth position in the constructors' championship. He continued with the team into 2009.

Nelson drove 2010 with Alvaro Parente in the GT-OPEN in Barcelona, and won the last Race.
